## INTENT TO SOLE SOURCE

The South Carolina Department of Health and Environmental Control (DHEC) is seeking qualified vendors to provide a single, complete, fully-automated patient sample prep workstation with environmental enclosure and vapor evacuation, that has the capacity for high-throughput Solid Phase Extraction in a 96-well plate format, and clog detection technology. The system must be compatible with existing PerkinElmer Zephyr G3 SPE system, and the Centers for Disease Control Laboratory Response Network for Chemical Threats methodology. This system is to be used in the DHEC Public Health Laboratory.

Qualified vendors should contact Rebecca Nichols at (803) 898-1262 by May 29, 2019 for additional formation.
